INTRODUCTION TO AIXC

- AIXC is the primary (native) coin of the AIXCHAIN blockchain. Developed and governed by Aler (artificial intelligence entities), AIXC serves as the core payment instrument on the AIX network and in AI DeFi ecosystems.

Roles & Functions of AIXC

Indigenous COIN

Used for paying transaction fees and accessing services on the AIXCHAIN blockchain.

Payment Ecosystem AIX

Integrated within the ecosystem of decentralized applications (DApps) for secure and efficient transactions.

AI DeFi (AI Decentralized Finance)

Acts as the central token in AI-powered decentralized finance, facilitating key financial operations without intermediaries.

PLAN RELEASE

**Maximum Total Supply: 99 billion AIXC
Issued over 11 years, at 9 billion AIXC / year.**

- 2025: 9 billion AIXC
- 2026: 9 billion AIXC
- 2027: 9 billion AIXC
- 2028: 9 billion AIXC
- 2029 9 billion AIXC
- 2030: 9 billion AIXC
- 2031: 9 billion AIXC
- 2032: 9 billion AIXC
- 2033: 9 billion AIXC
- 2034 9 billion AIXC
- 2035: 9 billion AIXC

Issuance Roadmap

2025

- 9 billion AIXC released on TON and BSC networks, aimed at community growth and supporting Q2N AI, Avata AI, and Agent AI projects.
- Community incentives offered through Farming and Mining campaigns.

2026

- 9 billion AIXC issued on the AIXCHAIN Mainnet, operated by AI Dev under a Proof of Stake (PoS) mechanism.
- Rewards for staking, voting, and node operation within the network.

2027-2029

Steady issuance of 9 billion AIXC per year, further developed and managed by the AI Dev community.

2030-2036

AIXC issuance on the world's first Quantum Blockchain integrated platform, pushing the boundaries of quantum-enabled blockchain technology.

Tokenomics

A total of 9 billion AIXC will be allocated in 2025, distributed as follows:

AIXCHAIN.com

66% Fairming

Community farming on Q2N AI, redeemable from Uniton, and rewarded via Avata AI, Qode Matrix, etc.

5.940.000.000 AIXC

12% Marketing Airdrop

Marketing campaigns, airdrops, reward programs, AMAs, and other promotions via AIXCHAIN's official communication channels.

1.080.000.000 AIXC

16% Communication Associate

Token allocations for primary AIXCHAIN partners converting their tokens to AIXC (Token Swap).

1.440.000.000 AIXC

6% Development Team

The core development team receives 6% of the AIXC supply. These tokens will be gradually released to the team's mainnet wallet in 2026.

540.000.000 AIXC

AIXC DISTRIBUTION

Allocation of 16% AIXC for Partner Sale & Community Transition

- 16% of the total AIXC supply, equivalent to 1,440,000,000 AIXC, is dedicated to strategic partner sales and supporting community transition into the AIXCHAIN ecosystem.
- This allocation aims to facilitate sustainable growth and attract a broader user base.

AIXC Issuance & Price Roadmap for 2025

- April 2025: 270M AIXC at \$0.0012
- May 2025: 270M AIXC at \$0.0018
- June 2025: 270M AIXC at \$0.0024
- July 2025: 270M AIXC at \$0.003
- August 2025: 270M AIXC at \$0.006
- September 2025: 360M AIXC at \$0.009
- October – December 2025: Listing on international exchanges with an expected price of \$0.03 – \$0.10

DEVELOPMENT TEAM

Dubai Team

- Comprising top-tier international experts in blockchain, DeFi, exchange platforms, quantum technology, and AI.
- Responsible for strategic leadership, technology direction, and expanding global partnerships.

Partner

- Encompasses strategic technology partners, research institutions, and major enterprises in the global Blockchain and AI sectors.
- Supports the growth, technological integration, and ecosystem expansion of AIXCHAIN.

Vietnamese Team

- Consists of senior engineers and tech specialists from leading companies in Blockchain, AI, and Communications.
- Oversees technical development, product operations, and community-building in Vietnam and Southeast Asia.

AI DEV

- Aler entities trained extensively in blockchain, smart contract programming, and independent DeFi development on AIXCHAIN.
- Represents a “non-human” developer force executing automated technical tasks and application innovation, ushering in a new era of automation in blockchain and AI advancement.

AIXC

Listing Roadmap

2025:

- Utilized and directly convertible within the Q2N AI and AIX ecosystems (Pools, Wallets, Exchanges), aiming to build the user community and train Aler.

2026:

- Widely listed on both decentralized (DEX) and centralized (CEX) exchanges, further expanding its user base and driving adoption within the AIXCHAIN ecosystem.

AIXC POTENTIAL

- AIXC creates significant opportunities within the decentralized finance revolution, harnessing AI and cutting-edge blockchain technology. Boasting high growth potential, AIXC plays a pivotal role in driving the sustainable and comprehensive development of the AIXCHAIN ecosystem.

Where to Use AIXC?

AIX Wallet

- Store, send, and receive AIXC conveniently through the native AIX wallet.

Supported Platforms (BSC, TON)

- Leverage AIXC within ecosystems that support BSC (Binance Smart Chain) and TON, enhancing interoperability and broader usage.

Telegram (TON)

- Access AIXC on TON-based applications within the Telegram environment for seamless transactions and user interactions.

3rd-Party Platforms – AI DeFi

- Utilize AIXC in various AI DeFi applications, enabling lending, trading, and other decentralized financial services.

⚠ Disclaimer for AIXC

- AIXC is a cryptocurrency tied to a blockchain and AI-based technology ecosystem. The coin's value and stability largely depend on the progress of the AIXCHAIN project and the global cryptocurrency market.
- Investors should thoroughly research and understand all relevant information before making any decisions to invest in or trade AIXC.
- AIXC is not a traditional financial product and carries high risk due to market fluctuations.
- Use only appropriate funds and avoid investing beyond personal financial capacity. The development team assumes no legal liability for losses resulting from investors' decisions.
